## How to Banish Piles

Thousands Bless Dr. Leonard, the Physician Who Discovered a Common Sense Remedy.

If you think that the surgeon's knife is the only method of escape from the misery of piles, it is because you haven't heard of the new treatment known as Dr. Leonard's HEM-ROID.

The doctor's treatment is internal. He experiments for years he discovered the exact cause of piles and then went further and compounded a remedy that would remove the cause.

Dr. Leonard wants every sufferer to benefit by his discovery and so that there will be no doubting or delay Lee & Osgood and all druggists are authorized to sell HEM-ROID with guarantee that it will do as stated or money back.

On that honorable basis every sufferer should send a check for \$1.00 to Dr. Leonard's HEM-ROID today.

## FEET AREN'T ACHING OR TIRED NOW—"TIZ"

USE "TIZ" FOR TENDER, PUFFED-UP, BURNING, CALLOUSED FEET AND CORNS.

People who are forced to stand on their feet all day know what sore, tender, aching, burning feet mean. They use "Tiz" and "Tiz" cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a box of "Tiz" now from any druggist. Just think! a whole year's foot comfort for only a few cents.

## DR. BOHN ON REVOLUTIONARY EUROPE

Monday night almost have been called Russian evening at the Chautauqua tent on the academy campus, as the musical part of the evening was the excellent program provided by the Russian cathedral male quartette and the lecture was by Dr. Frank Bohn of Columbia university upon "Revolutionary Europe," in which he devoted much of the time to the bolsheviks.

The Russian singers, who were smacks of over-enthusiasm, sang a number of songs, provided one of the rarest musical treats in the Chautauqua course and were enthusiastically applauded. They sang in their own language, but the story of the song was first given in English.

Dr. Bohn held the closest attention of his audience for over three-quarters of an hour as he sketched the part that revolution played in the development of a country, the condition of some of the countries there today. In the first place he said that revolution was a perfectly normal step in the lives of nations, marking the transition from autocracy to democracy.

The nations of western Europe that have established democracies have been insular nations, or nations facing the sea, which is the only way to develop a democracy. Holland and Great Britain were notable examples. Yet it took 45 years for Great Britain to establish a democracy that had the strength to exist. Revolutions have been the cause of the world's miseries. It was this middle class that had achieved democracy and strong kings of their powers, but Germany was a misbegotten misbegotten country, a class by emigration, and had a monarchial trust established in home and church and school. There was no freedom in any field. Not 7,000 people in its population of 70,000 knew what to do to get a democracy. Between the old Junker aristocracy and bolsheviks a poor little group, the middle class, was the only one to get a democracy.

As to Poland, the speaker called them a poor, foolish, misled people to war upon Russia in order to get possession of the Ukraine. They must have definite outside help on the road to democracy. The Czechs-Slovaks, the Poles, the Hungarians, and Austria was a poor, innocent herd of people rushed into this war, and Hungary was a mass of illiterate peasants unable to create a republic.

Dr. Bohn, who was in Paris, said Dr. Bohn were trying to create major and minor republics out of penitents untried to rule themselves. Don't blame these men at all. These are the things they could. And we have not yet solved the problem of Mexico or the negro problem, nor has a solution been found for Ireland and Egypt.

Taking up Russia and the bolsheviks, Dr. Bohn said that no word has been more thoroughly misunderstood than bolshevism. It is a word for 100 millions of population, is 100 years behind western Europe in civilization. Ninety-three per cent of its people cannot read or write. It is preposterous to expect democracy in a minute under these conditions. Some people with ideas have gone into Russia. Ideas are a very good thing, but they must have some connection with the earth upon which they stand. Ideas of gold, simple, innocent, kindly people are these Russians with their bolshevik ideas, but their heads are addled. The town meeting in New England is a grand thing, but in Russia it is a word for 100 millions of population, is 100 years behind western Europe in civilization. Ninety-three per cent of its people cannot read or write. It is preposterous to expect democracy in a minute under these conditions. Some people with ideas have gone into Russia. Ninety-three per cent of its people cannot read or write. It is preposterous to expect democracy in a minute under these conditions. Some people with ideas have gone into Russia. Ideas are a very good thing, but they must have some connection with the earth upon which they stand. Ideas of gold, simple, innocent, kindly people are these Russians with their bolshevik ideas, but their heads are addled. The town meeting in New England is a grand thing, but in Russia it is a word for 100 millions of population, is 100 years behind western Europe in civilization.
